We are locking 1850 \$Fire tokens in the NFT Vault, we will add the Fire tokens from NFT sale in this Vault and burn all the tokens together on 25th Dec.

The buy back mechanism allows team to buy \$Fire Tokens from the market and keep adding it to the staking reward pool. Team will use presale fund for the buy back mechanism. This will have two positive results a) It will support \$Fire token price b) More rewards for community using \$Fire staking feature.

We will launch 4 Firestarter NFTs of famous influencers, electronically signed by them. Holders of the Firestarter NFT will need to follow certain task to win the NFT competition. 1st Prize 4 Eth, 2nd Prize 3 Eth, 3rd Prize 2 ETH, 4th Prize 1 ETH

Presale Participants - Participants of Presale will get 10x \$FireX Tokens as Airdrop on 1st Jan 2021
Holders of \$Fire Tokens - Holders of \$Fire tokens as of 24th Dec will get 10x \$FireX Tokens, screenshot will be taken on 24th Dec before the big burn.

On 25th Dec, all the tokens in the NFT Vault will be burned to achieve a minimum supply.
